ACORID ExtSwitch ES4205+ Ethernet Extender is a high reliability and low cost broadband Ethernet transport equipment which is designed according to the latest technology by acorid. It is adopted to extend 10M Ethernet to 300 meters or 600 meters, which deals with the situation of high cost but low popularization in the early of broad band construction.

Ordering information

SKU	Description	Connectors
-----	-------------	------------

R617-811	ES4205+,10Mbps,300meters,5-ports, ethernet extender internal power (UTP CAT5/6)	5 x RJ45
----------	--	----------

Feature

·Unique owned patentHypertrans- LRE(Long- Range Ethernet) Ethernet driving technology

10BASE-T compatible

Ethernet 300 meters transmission(UTP CAT5)

·Auto-Negotiation

Plug-and-play operation

Real-time transmission, maximum delay 2 ms

Specifications

Ethernet Interface	
Connector :	RJ45
Data rate :	10Mbps
Duplex mode :	Half / Full duplex
Cable type :	10Base-T Cat.5,6, UTP,100Base-TX Cat.5, 5e
Cable length:	Shielded UTP cable:150 meters Non-Shielded UTP cable:300 meters
Standard:	IEEE 802.3, IEEE 802.3u
LEDs:	Power, Link, speed
Power	DC 5V In,
Power Consumption	< 3W
Dimensions	108 x 74 x 23mm,
Weight	45g
Temperature	0~50°C (Operating)0~70°C (Storag)
Humidity:	10~90% non-co densing
Certification	CE, FCC, RoHS
Electromagnetic sensitivity	c-tick:CE mark,commercialESD:IEC801-2,level 2/3
